

# Basic Pattern Reading

## Instructor: Ruth Anne Schroeder

This lecture class is designed to help students learn about the vocabulary and materials used in sewing patterns and directions. We will cover materials, including interfacing, fusibles, fabric types, fabric principles and other notions, and common sewing terms. You will receive handouts and samples, and bring your notebook, pen and pencil. The first two hours will be lecture, and the final hour will be reserved for questions.

### Student Supply List

- ✓ A pattern you may have with specific questions for the final hour
- ✓ Notebook and pen or pencil
